

NewLeaf Forestry

Forestry Managers

Salary 30-50k DOE

Our industry is growing daily, and we want to find the right people to help us grow alongside it. It is time to break the cycle, the time frames and the slow responses. It is time to be more dynamic, sustainable and fresh thinking. Forget the misconceived ideas of the forestry industry and Join NewLeaf Forestry Ltd to mix things up.

Core skills to include but not limited to:

Woodland creation
Forestry Management
Mapping
Great interpersonal skills

Must have:

GIS experience
Chartered Forester Status or working towards chartership.
Working knowledge of the UKFS
UK Driving Licence
Love of Forests

WFH (South West Scotland based.)
Package by negotiation and DOE.

We are NewLeaf Forestry LTD, growing year after year; our business is to be the best in Forestry. Work cleverer and produce incredible results for our forestry owners and, in turn, be out in the beautiful Scottish forests making the most of what they have to offer. We are passionate about doing things the right way and being innovative in our approach. We want to work with incredible individuals in their fields to create a dynamic team across the forestry industry. We are the one-stop shop for forestry needs and work with these teams to offer each forestry owner everything they need to manage their forests. We are not looking for disinterested parties who do the bare minimum to get by. We are looking for dynamic, exciting individuals to build on our already excelling team. We want people who take pride in their work and want to improve on their successes to benefit the forests we represent, growing our reputation and theirs.

Professional membership of the Institute of Chartered Foresters or another relevant professional body is desirable.
