

**Fountains
Forestry**
AN F&W COMPANY

Fountains Forestry has been managing woodland in the UK since 1957. We provide expert services in all aspects of forest and associated land management, including acquisition and brokerage of forest and woodland properties.

Our team of professional forest managers work closely with forest and woodland owners to help them achieve their management objectives, and the sustainability of their woodlands, through sound forest management advice and best practice in silvicultural and operating procedures.

Today, we are part of the F & W Forestry Services Group which globally manages approximately 900,000 hectares (over 2 million acres) of forests and woodland throughout North America, South America, the UK, and France.

We currently have vacancies for the following posts

- **Assistant Forest Manager – Dumfries**
- **Assistant Forest Manager – Stirling**
- **Forest Supervisor, Wildlife Ranger – Inverness**

We are seeking to recruit experienced individuals to fulfil the above roles, based from one of our offices at either Dumfries, Stirling and Inverness, you will have a sound technical forestry knowledge and an understanding of commercial business practice, legislation, and relevant current issues. For the wildlife ranger post we would expect deer control experience and DSC2 qualification, this post will also involve supervision of forest operations and would be particularly suited to an individual with an interest and experience in both aspects.

You will be able to work on your own initiative but also as an integral part of a professional management team. With good communication and computer skills including GIS, you will undertake forest management and woodland establishment on a range of properties that will include operations planning, contract management, and supervision of a wide range of forest operations.

We're looking for candidates who are highly motivated, confident, enthusiastic and reliable with the ability to identify solutions when problems arise. In addition to this, you will ideally have:

- Relevant academic qualifications and experience.
- Good communication and team working skills.
- Good knowledge of the current forestry practice and legislation.
- Be a member of the Institute of Chartered Foresters or another relevant professional body or working towards.
- Full UK driving licence

In return we will offer you a competitive and attractive salary and benefits package. **Closing Date 9th Oct 2023**
